

Everything Needs a Home

It's time that we stand up and say x2
Everything needs a home, A habitat, a place to roam
Everything needs a home, A habitat, a place to roam.

Chorus

Everything needs a home, to protect them from the elements
Everything needs a home, from ants on up to elephants.

Bulldozers have been through here, left the ground flat and bare
Wildlife has no place to stay, It's adapt, die, or move away.

It's time that we stand up and say

(chorus)

Tropical trees are cut down, The rain erodes the ground
Jungle life has no place to stay, It's adapt, die, or move away.

It's time that we stand up and say

(chorus)

At sea there's oil drills, that turn to oil spills
Ocean life has no place to stay, It's adapt, die, or move away.

It's time that we stand up and say

(chorus)

Let's stop polluting our homes, We'll be living here all alone
No where to go to get away

It's time that we stand up and say (x2)

(chorus)

Everything needs a home, A habitat, a place to roam
Everything needs a home, A habitat, a place to roam.

Everything needs a home! (repeat until done)
