

# No Bones Within

Written by Steve Van Zandt

F D7 Gmi C7 F D7

Head, tho - rax, ab - do - men You're in - side - out, no

Gmi C7 F D7 Gmi C7

bones with - in Head, tho - rax, ab - do - men I'm

F C7 F Bb

tal - king a - bout my six - leg - ged friends They go through me - ta - mor -

F Bb F

phic change They turn from weird to real - ly strange.

Bb F C7

Wings to fly, an - ten - nae too Mouth parts to suck and chew—

## CHORUS

Some aren't so good to have around  
 Because they eat my garden down  
 Others are beneficial guests  
 Because they eat those garden pests

## CHORUS

Moths, wasps, flies and fleas  
 Crickets, ants, beetles and bees  
 Each one has a part to play  
 From pollinating flowers to eating decay

## CHORUS

If you want a different point of view  
 Get down on the ground and do what the insects do  
 And if you see a foot in the air  
 Hope that it's a foot that walks with care.

## No Bones Within

### CHORUS:

Head, thorax, abdomen  
You're inside-out, no bones within  
Head, thorax, abdomen  
I'm talking about my six-legged friends

They go through metamorphic change  
They turn from weird to really strange  
Wings to fly, antennae too  
Mouth parts to suck and chew... (CHORUS)

Some aren't so good to have around  
Because they eat my garden down  
Others are beneficial guest  
Because they eat those garden pests... (CHORUS)

Moths, wasps, flies and fleas  
Crickets, ants beetles and bees  
Each one has a part to play  
From pollinating flowers to eating decay... (CHORUS)

If you want a different point of view  
Get down on the ground and do what insects do  
And if you see a foot in the air  
Hope that it's a foot that walks with care... (CHORUS)
