

# Water Cycle Boogie

Written by Doug Greenfield

E - va - po - ra - tion, con - den - sa - tion, pre - ci - pi -  
 ta - tion The wa - ter cy - cle boo - gie goes round and round The  
 wa - ter cy - cle boo - gie goes up and down The sun gives the wa - ter cy - cle  
 po - wer to spin The wa - ter goes up and down a - gain The  
 sur - face of all wa - ter heats up with the sun The va - por ri - ses up and then the  
 boo - gie's be - gun What's that called? What's that called? E - va - po - ra - tion

CHORUS: Evaporation, Condensation, Precipitation  
 Water cycle boogie goes round and round  
 Water cycle boogie goes up and down

Water holds together chemically  
 Hydrogen bonding is what you see  
 All those airborne vapors they squeeze together  
 To form a cloud that could change the weather

What's that called? What's that called?  
 (CONDENSATION)

CHORUS: Condensation, Precipitation, Evaporation  
 Water cycle boogie goes round and round  
 Water cycle boogie goes up and down

All those dark clouds can't hold together  
 Water boogies down bringing stormy weather  
 Fog, rain, hail, flurries, ice, and sleet  
 Splish, splash, and crunch underneath your feet

What's that called? What's that called?  
 (PRECIPITATION)

CHORUS: Precipitation, Evaporation, Condensation  
 Water cycle boogie goes round and round  
 Water cycle boogie goes up and down

Two thirds of earth is water, it's true  
 Gives life to every plant and animal too  
 Respect water's power, only use your share  
 Don't waste a drop, there's none to spare  
 Let's do the water cycle boogie again  
 Let's go for another spin! (REPEAT 1ST CHORUS)

# WATER CYCLE BOOGIE

## CHORUS:

Evaporation, Condensation, Precipitation  
The water cycle boogie goes round and round  
The water cycle boogie goes up and down

The sun gives the water cycle power to spin  
The water goes up and down again  
The surface of all water heats up with the sun  
The vapor rises up and then the boogies begun  
What's that called? What's that called?

## EVAPORATION

## CHORUS

Water holds together chemically  
Hydrogen bonding is what you see  
All those airborne vapors they squeeze together  
To form a cloud that could change the weather  
What's that called? What's that called?

## CONDENSATION

## CHORUS

All those dark clouds can't hold together  
Water boogies down bringing stormy weather  
Fog, rain, hail, flurries, ice and sleet  
Splish, splash, and crunch underneath your feet  
What's that called? What's that called?

## PRECIPITATION

## CHORUS

Two thirds of the earth is water, it's true  
Gives life to every plant and animal too  
Respect water's power, only use your share  
Don't waste a drop, there's none to spare  
Let's do the water cycle boogie again,  
Let's go for another spin!

## CHORUS
