

WHAT DO ANIMALS NEED?

by Larry Graff

CHORUS

What do a - ni - mals need ____? What do a - ni - mals need ____
____? What do a - ni - mals need ____? What do a - ni - mals need ____?

The musical notation is written on two staves in treble clef with a common time signature (C). The melody consists of quarter and eighth notes. Chords are indicated above the notes: Am, G, D, and Am.

1. Animals live in tropical lands
and giant old growth redwood stands
Desert dunes, a lake or a bog
Hey! An animal can live in a rotting old log
They live everywhere - this whole world round
In the air, land or water and underground
Food, water, shelter, that's where its at.
An animal's home is called its habitat.

What do animals need? - A wild home
What do animals need? - Room to roam
What do animals need? - Clean water and air
What do animals need? - Love and care

2. The blue whale in the ocean, the tortoise in the sand
The tigers in the jungle hope that we will understand.
If we take away their homes what will animals do?
Where will they go? They can't live with you.
Alligators and snakes would be sleeping in you bed,
Monkeys jumping off the tables, flying bats above your head
For a cheetah there would be no place to run
What misery for a grizzly, it wouldn't be much fun.
Imagine in your kitchen, a herd of wildebeast
Raiding your fridge on a midnight feast.
It just wouldn't work, that's plain to see
These animals need to be wild and free.

What do animals need? - A wild home
What do animals need? - Room to roam
What do animals need? - Clean water and air
What do animals need? - Love and care

3. Now animals need the earth to survive
A habitat, a home that keeps them alive.
And people, we have the same needs too.
Because we are animals, that's true.
Together we share this little space
Let's keep this world a beautiful place.
All animals need the earth to survive
Protect habitats, keep them alive.

We can keep it that way - The forests green
We can keep it that way - The rivers clean
We can keep it that way - Let's plant the seed
We can keep it that way - For what we need
What does everyone need? - A healthy home
What does everyone need? - Room to roam
What does everyone need? - Clean water and air
What does everyone need? - Love and care

WHAT DO ANIMALS NEED? © Larry Graff, 1995

What do animals need?
What do animals need?
What do animals need?
What do animals need?

Animals live in tropical lands,
And giant old growth redwood stands,
Desert dunes, a lake or a bog.
Hey! An animal can live in a rotting old log.
They live everywhere, this whole world round,
In the air, land or water and underground.
Food, water, shelter, that's where it's at.
An animal's home is called its habitat.

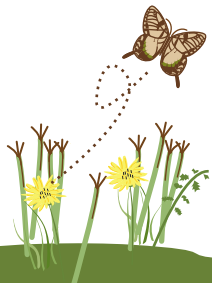

CHORUS

What do animals need? A wild home
What do animals need? Room to roam
What do animals need? Clean water and air
What do animals need? Love and care

The blue whale in the ocean,
The tortoise in the sand
The tigers in the jungle
Hope that we will understand.
If we take away their homes,
What will animals do?
Where will they go?
They can't live with you!
Alligators and snakes would be sleeping in your bed.
Monkeys jumping off the tables,
flying bats above your head.
For a cheetah there would be no place to run.
What misery for a grizzly, it wouldn't be much fun.
Imagine in you kitchen, a herd of wildebeest,
Raiding your fridge on a midnight feast.
It just wouldn't work, that's plain to see.
These animals need to be wild and free.

CHORUS

Now animals need the earth to survive.
A habitat, a home that keeps them alive.
And people, we have the same needs too.

Together we share this little space
Let's keep this world a beautiful place.
All animals need the earth to survive.
Protect habitats, keep them alive.

We can keep it that way - the forest green
We can keep it that way - The rivers clean
We can keep it that way - Let's plant the seed
We can keep it that way - For what we need

What do animals need? A healthy home
What do animals need? Room to roam
What do animals need? Clean water and air
What do animals need? Love and care.
