

Connecting families to nature through exploration

Book Card

by Zoe Hall

Fall Leaves Fall!

How many leaves can you catch before they hit the ground with little net or just your hands? Rake leaves into a winding maze with only one entrance and exit! Use tape measure to measure how long maze is & biggest & smallest leaf you caught. Make a Leaf Angel! (like a snow angel but in pile of leaves!) **JOURNAL IDEA:** record how many leaves caught, biggest, smallest.
