

In the Snow: Who's Been Here

Be an animal detective! Use Track ID Sheet to ID tracks. Use binoculars to look for birds that have left tracks. Look for clues in backyard or park indicating an animal has been there. Places in snow where animals have bedded down? Animal snow tunnels? Use magnifying glass, magnifying box to look closely at things. Imagine what animal left that clue (wear Imagination Butterfly Band). **PHOTO IDEA:** Imagination Butterfly Band sitting by a clue-have others guess the animal.
