In the Woods: Who's Been Here?

Be an animal detective! Use Track ID Sheet to ID tracks. Find birds with binoculars that left tracks. Use Leaf ID to ID leaves that animals have been chewing on. Look for clues in backyard/park indicating an animal has been there. Use magnifier, magnifying box to look at things. Imagine what animal left clues. **PICTURE IDEA:** Wear Imagination Butterfly Band sitting by a clue show picture to others. Have them guess the animal.
