One Small Place in a Tree

Find a hole in a tree. Sit silently for 10 minutes 35 feet from it to observe any animals coming & going, use **binoculars** to see closer. Use **measuring tape** to measure distance you are from tree. Quietly approach tree, look inside hole with **flashlight**. Use **magnifier** to see any tiny animals living there. Use **Animal ID Guides/Track ID Sheet** to ID animals (or signs of) you might find. Observe hole in all seasons.
