## Owl Moon

Listen to Owl Call CD/look at Owl ID book (in back of book). Go on a full moon, night walk. Use compass to see where moon is in sky. With binoculars, look at moon, locate owls. Call in owls by imitating owl calls from CD. Wear Imagination Butterfly Band-sit still in moonlight - look for animal shapes in clouds passing over moon. Stand facing each other – how many steps backwards can you go and still see each other?
