

Connecting families to nature through exploration

*by Cynthia Rylant*

## Snow

Take a snow walk & “see how beautiful the world is.” Catch snowflakes on mitten or frozen black paper - discover their designs with **magnifier**. Catch snowflakes on your tongue! Make snow angels! Roll down a snow hill! Make ICE ART: find nature objects outside, put in water in cup/saucer with piece of string, freeze, remove from container, hang outside. **JOURNAL IDEA:** Draw snow crystal observed with **magnifier** or draw/write your favorite memory of fun with snow/ice.
