

ROCK CYCLE DICE GAME

ROCK CYCLE GAME

SOIL = BROWN
OCEAN = BLACK
MOUNTAINS = GREEN
EARTH'S INTERIOR = ORANGE
RIVER = PINK
CLOUDS = WHITE
VOLCANO = RED

DICE SIDE INSCRIPTIONS:

EARTH'S INTERIOR:

Earth's surface moving	Go to volcano
Magma is forced up	Go to volcano
Earth's surface pushing up	Go to mountain
Pressure occurs more layers	Stay here
Pressure occurs more layers	Stay here
Pressure occurs more layers	Stay here

RIVER:

Flood water deposits silt to river bed	Go to soil
Sediments form	Go to soil
Sediments under pressure	Go to earth's interior
Silt washed into ocean	Go to ocean
Water washed away layers	Go to mountains
Ice melts carrying rocks	Stay here

CLOUDS:

Rain	Go to ocean
Rain	Go to ocean
Snow	Go to mountain
Snow	Go to mountain
Rain	Go to soil
Rain	Go to soil

SOIL:

Pressure occurs	Go to earth's interior
Pressure occurs	Go to earth's interior
Pressure occurs	Go to earth's interior
Rock breaks down	Stay here
Rock breaks down	Stay here
Sediment being formed	Stay here

OCEAN:

Sand washed up onto shore	Go to soil
Sand washes up onto shore	Go to soil
Sand washes up onto shore	Go to soil
Ocean floor being buried	Go to earth's interior
Ocean floor being buried	Go to earth's interior
Dust evaporates with water	Go to clouds

MOUNTAINS:

Wind erosion occurs	Go to soil
Wind erosion occurs	Go to soil
Wind erosion occurs	Go to soil
Ice melts carrying rocks	Go to river
Ice melts carrying rocks	Go to river
Glacier/ avalanche	Go to ocean

VOLCANO:

Volcano erupts spitting out lava	Go to mountain
Earth's surface pushing up	Go to mountain
Volcano sends ash and dust into the air	Go to clouds
Magma rocks pushed to the surface	Go to soil
Magma flows into the ocean	Go to ocean
Magma makes crystals	Stay here
