

Water Cycle Boogie

Written by Steve Van Zandt

Illustrated by Rick Mack

Book based on a song by the Banana Slug String Band

*Evaporation, Condensation, Precipitation
The water cycle boogie goes round and round
The water cycle boogie goes up and down*

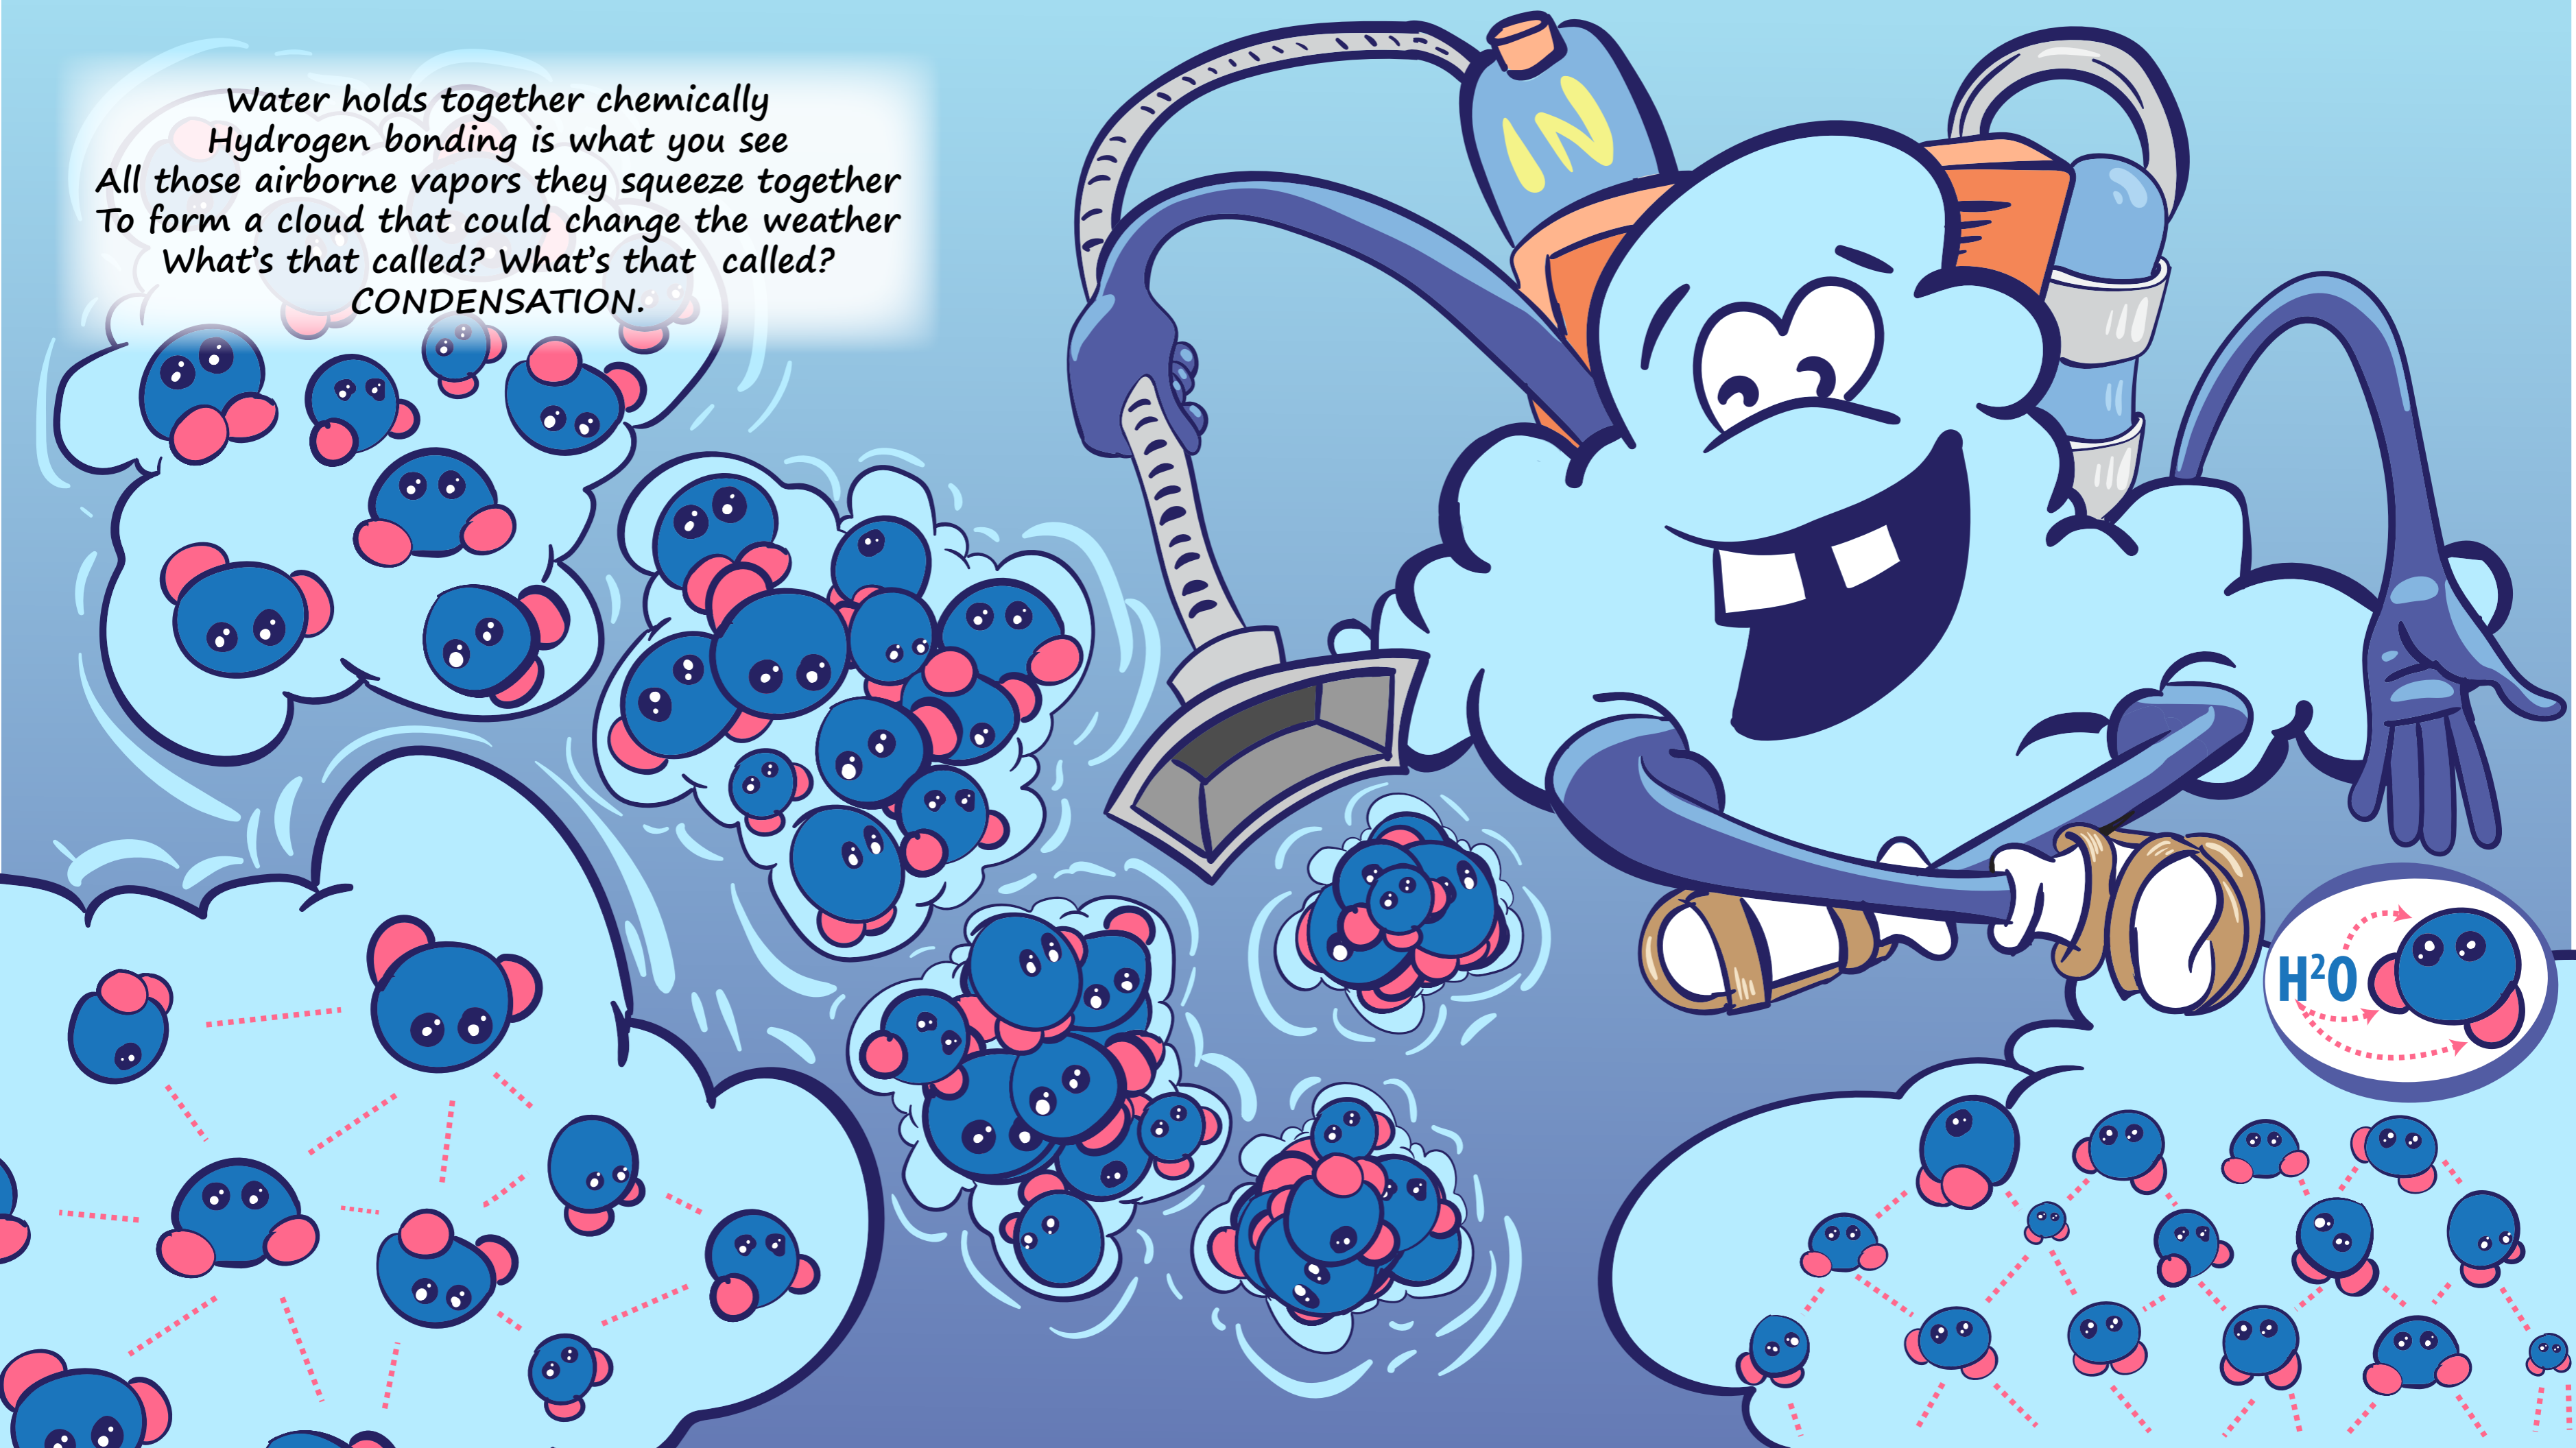

The sun gives the water cycle power to spin
The water goes up and down again
The surface of all water heats up with the sun
The vapor rises up and then the boogie begun
What's that called? What's that called?
EVAPORATION

*Evaporation, Condensation, Precipitation
The water cycle boogie goes round and round
The water cycle boogie goes up and down*

Water holds together chemically
Hydrogen bonding is what you see
All those airborne vapors they squeeze together
To form a cloud that could change the weather
What's that called? What's that called?
CONDENSATION.

Evaporation, Condensation, Precipitation
The water cycle boogie goes round and round
The water cycle boogie goes up and down

All those dark clouds can't hold together
Water boogies down bringing stormy weather
Fog, rain, hail, flurries, ice, and sleet
Splish, splash, and crunch underneath your feet
What's that called? What's that called?
PRECIPITATION

Evaporation, Condensation, Precipitation
The water cycle boogie goes round and round
The water cycle boogie goes up and down

Two thirds of the earth is water, it's true
Gives life to every plant and animal too
Respect water's power, only use your share
Don't waste a drop, there's none to spare
Let's d the water cycle boogies again,
Let's go for another spin!

Evaporation, Condensation, Precipitation
The water cycle boogie goes round and round
The water cycle boogie goes up and down
