

## **WATER CYCLE NATURE LIVE! INFORMATION**

We would like you to set up a test session with us before your first Nature LIVE! session so we can test links, visual, and audio within your classroom.

### **WATER CYCLE PROGRAM OVERVIEW:**

Students will learn about the water cycle and three forms of water. This series of sessions will be offered in the Spring.  
(ESS.2.2.1)

#### **SESSION 1: EVAPORATION (OFFERED IN MARCH & APRIL)**

During this 20 minute online adventure, your naturalists will lead the session from one of our many Miami County Parks! Does evaporation only happen outside in the water cycle? Explore real world ways as how this part of the water cycle can be seen closer to home. Introduce Transporation and compare the two processes. This session also has a tailored review quiz for your students and the Water Cycle Boogie SCIENCE JOURNEYS material will support the same standards.  
(ESS.2.2.1)

#### **SESSION 2: CONDENSATION (OFFERED IN APRIL & MAY)**

During this 20 minute online adventure, your naturalists will lead the session from one of our many Miami County Parks! Together they will help the students explore the world of hydrogen bonding. Searching for condensation and bonding in our everyday lives. This session also has a tailored review quiz for your students and the Water Cycle Boogie SCIENCE JOURNEYS material will support the same standards.  
(ESS.2.2.1)

#### **SESSION 3: PRECIPITATION (OFFERED IN MAY)**

During this 20 minute online adventure, your naturalists will lead the session from one of our many Miami County Parks! Why is liquid water so important to us? How can all the forms of falling water be damaging to our environment all around us? What animals live in water that is replenished by precipitation? Together your students will investigate the answers to these questions with a naturalist. This session also has a tailored review quiz for your students and the Water Cycle Boogie SCIENCE JOURNEYS material will support the same standards.  
(ESS.2.2.1)
