

What Do Animals Need?

This year the Miami County Park District has given you and your child the opportunity to choose whether your child will keep their costume as a new t-shirt to wear throughout the summer, or to cut it into a Habitat Hero cape. Cutting it into a cape will help promote imaginative play as they run around as superheroes saving habitats and even the world! If you wish to turn it into a cape, follow these simple instructions.

Use fabric scissors if you have them. If not, any adult scissors will do (preferably sharp):

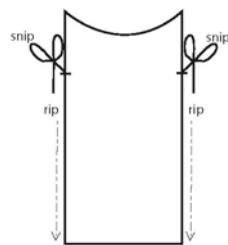

STEP ONE

Cut both arms off on the inside of the seam.

STEP TWO

In the armpits of the sleeveless t-shirt, make a snip with the scissors in a downward direction. Then rip the shirt straight down both of the sides. Use scissors to help if needed (sometimes it does not rip straight so you may need to cut).

STEP THREE

Cut a horizontal line across the breast of the shirt 4-5 inches.
